

Safe & Sound Amenities

Advantages of a Masonry Framed Home

- Resistant to mold and termites
- Less air infiltration than a wood-framed home
- Built with environmentally friendly materials
- Reinforced with steel to withstand strong winds
- Very quiet due to masonry framing mass
- Lower insurance and maintenance costs
- Increased fire protection since masonry doesn't burn
- Very energy efficient due to thermal mass
- More comfortable than a wood-framed home
- A solid investment for years to come

Energy Features

- Energy Star rating & Energy Manager system lower electric bills by 40-60%
- Premium aluminum-clad low E argon-filled Weathershield simulated divided lite casement windows for maximum energy efficiency
- Upgraded insulation package with backer rods at all wall penetrations to minimize air infiltration
- Expanded foam insulation inside masonry framing fills all voids and increases sound dampening
- High efficiency HVAC system has multiple zones for easy control
- Humidifier on first floor maintains consistent moisture level for hardwood floors & year-round comfort
- Digital thermostats & variable speed furnaces control humidity and reduce energy usage
- Recirculating hot water system conserves water & insures instant hot water throughout the home
- Two energy-efficient 50-gallon gas hot water heaters
- Ceiling fans installed in Family Room, Master Bedroom, Hearth Room, Rear Porch & Rec Room
- Crawl space fan with humidistat prevents unwanted moisture
